DATA ANALYTICS CAPSTONE PROJECT

A project created by **Kriti Bhandari**

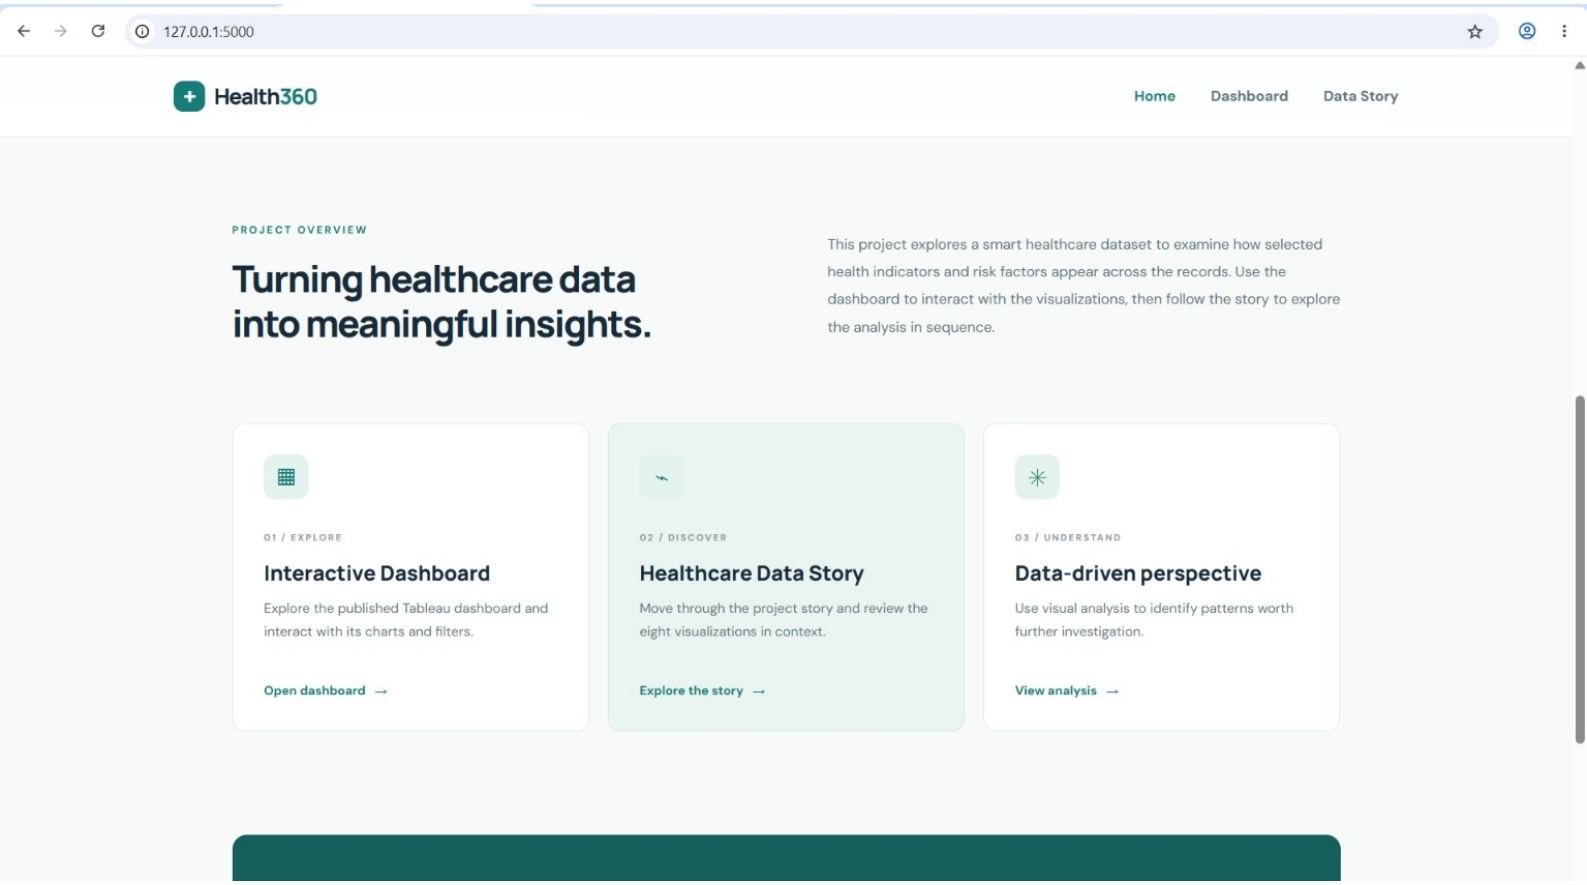

# Understanding health risks through data.

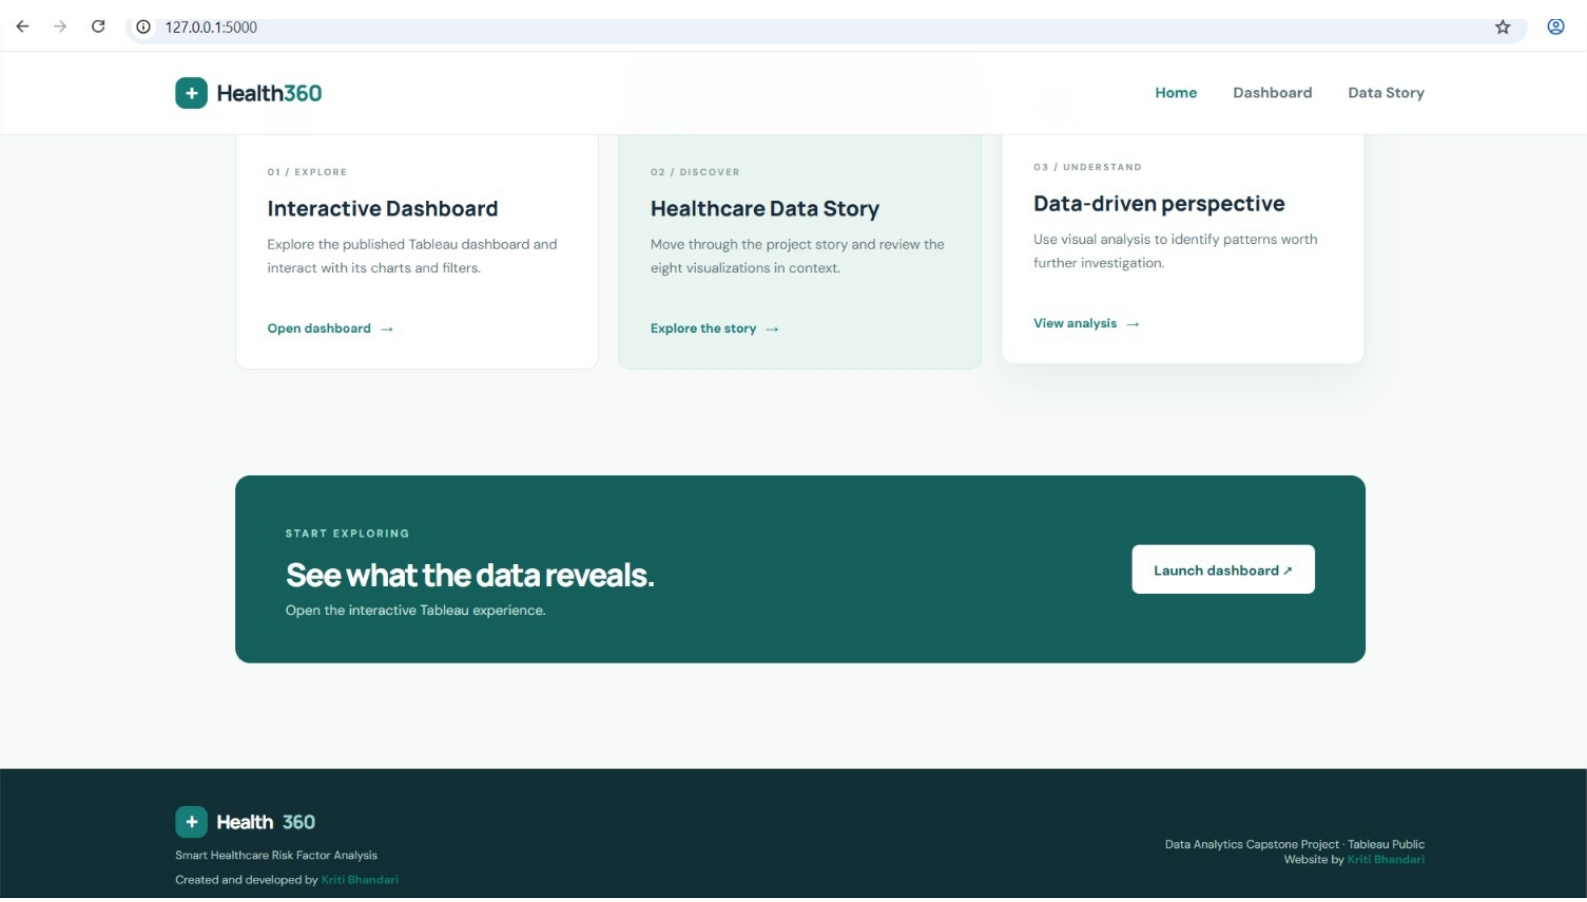

An interactive exploration of healthcare risk factors, patterns and relationships using data visualization.

PROJECT OVERVIEW
Turning healthcare data into meaningful insights.
This project explores a smart healthcare dataset to examine how selected health indicators and risk factors appear across the records. Use the dashboard to interact with the visualizations, then follow the story to explore the analysis in sequence.
01 / EXPLORE
Interactive Dashboard
Explore the published Tableau dashboard and interact with its charts and filters.
